

# 2009 Career Fair Tuesday & Wednesday

Career Expo 2009 will take place next week on Tuesday and Wednesday, September 22 and 23 in the Corbett Center Student Union. Coordinated by NMSU Career Services and the College of Engineering, the event provides students with career opportunities for all level of students, from internships to co-ops to professional employment.

“The advantage of the Career Expo is the variety of employers who are looking for all types of majors at NMSU in one convenient location,” said Roseanne Bensley, associate director of NMSU Career Services. “Even with the increase in job applications on the internet, candidates who interact one-on-one with recruiters will have an advantage through the contact.”

Participating students are encouraged to establish an AggieTRAK account on the Career Services Web site, <http://careerservices.nmsu.edu/>. AggieTRAK-registered students will be able to research employers, send in resumes in advance and access the campus interview schedules during the Career Expo.

Infosessions are also being presented, beginning Monday evening, September 21. Check the College of Engineering Web site for a schedule of engineering related sessions.

For more information, contact NMSU Career Services at (575) 646-1631.
